

Penalty costs:

The tables below show the penalties if water use reductions are not met. All penalties are based upon usage compared to 2013. Penalties will appear as a charge on your utility bill.

Residential and Commercial Customers

Reduce usage by:

35%	No Penalty
0% – 34%	\$100 Penalty
Increased Water Use	\$200 Penalty

Irrigation-Only Customers

Reduce usage by:

40%	No Penalty
0% – 39%	\$100 Penalty
Increased Water Use	\$200 Penalty

Effective November 1st for November usage which is billed in December.

Water Conservation Penalties

Do your part and avoid costly penalties.

Please use less water to avoid penalties!

The state has mandated we cut potable water use in Brentwood or incur penalties. To meet this requirement the Brentwood City Council has adopted a Water Conservation Program. This program includes penalties for excessive water use.

About Penalties

Penalties will be added to monthly utility bills unless you conserve 35% or continue to use water within the 2013 citywide reduced average. Penalties will NOT be applied if usage is under the citywide average. Citywide averages are listed below.
